

3564 Oakfield Manor Farm

Client	Private Client
Scope	Extension and Alterations to House
Location	nr Chelford, Cheshire
Project Value	£0.8 million
Status	Completed

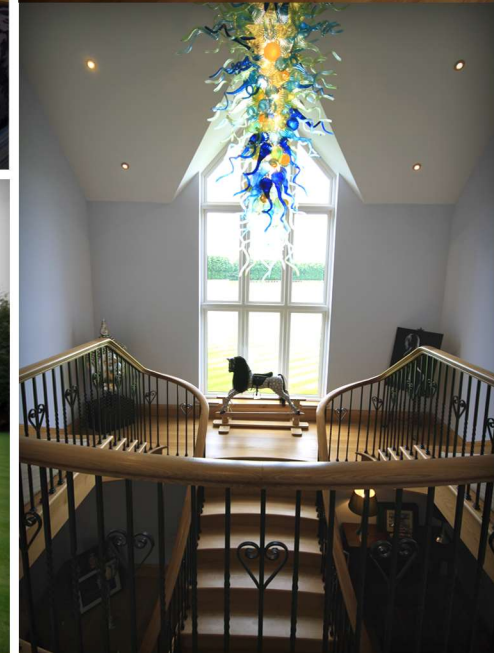

Before

The original dwelling had been built by the farmer in the 1980s. Because the client wanted to occupy the house as soon as possible, the house was retained and extended, rather than replaced. The time required to secure a planning consent for a replacement dwelling was considered to be too long.

The alterations included the formation of a double height entrance hall, in the centre of the existing house, below a remodelled roof. The extension accommodated the kitchen, utility, gym and master bedroom suite. The design was a fusion contemporary space with traditional detailing.

A stone portico was added to the front of the house. A minimalist conservatory provides a contrast to the rear of the house.
